

STRATTON ECO

Enhance your outdoor spaces with the Stratton Eco—our compact yet stylish solid wooden lighting bollard. Fitted with an energy-efficient LED lamp, it's perfect for decking areas, driveways, pathways, coastal areas and more.

As a slightly smaller sibling to our Stratton Single, this bollard still delivers a bold visual impact and long-lasting performance. Built from recyclable and biodegradable components, it reflects our commitment to sustainable design—because great style shouldn't leave a lasting footprint.

To help you enjoy its natural beauty from the start, we apply a coat of a natural oils before it leaves our workshop. This highlights the rich grain and vibrant tones of the wood, preserving its charm over time.

Crafted from sustainably sourced “green” timber, each piece is unique. Natural cracking, twisting, and warping will occur as the wood ages—adding character and ensuring no two are ever the same.

Installation is quick and simple: just dig a hole, secure the bollard with your preferred concrete mix, and connect the power using a waterproof electrical connector (not included). That's it!

The electrical connection on all our products needs to be carried out by a qualified electrician.

Features & Benefits

- Oak & Larch timber options
- Easy to install
- Low maintenance
- Low energy
- Sustainably sourced timbers
- Replaceable 240v 1.3w Light source with flying lead
- Warm white 3000k, LED driver included

Optional Extras

- WIFI remote control
- Ground mounting plate (requires specifying at time of order) 900mm high post

Product Code	Name	Dimensions (mm)	Light Source
WL010-L	Stratton Eco Larch	1150x94x94	1x 1.3w 240v LED
WL010-O	Stratton Eco Oak	1150x94x94	1x 1.3w 240v LED
