

Shoreham

PRODUCT SPEC SHEET

This premium solid timber lighting bollard blends natural aesthetics with modern performance, making it ideal for driveways, pathways, car parks, heritage settings, coastal developments, and landscaped outdoor spaces.

Designed for both style and functionality, this outdoor wooden garden lighting bollard features an energy-efficient, low-voltage LED unit with a distinctive 360° light output. The result is a striking and atmospheric glow that enhances visibility while elevating the character of any exterior environment.

With its bold proportions and timeless presence, the Shoreham stands out as a durable and dependable external timber lighting feature. Crafted from recyclable and biodegradable materials, it supports sustainable design principles, proving that premium outdoor lighting can be both beautiful and environmentally responsible.

Each bollard is treated with natural oils before leaving our workshop, enriching the grain and enhancing the warm tones of the wood. This process protects and preserves the integrity of the material, ensuring long-lasting performance in all outdoor conditions.

Milled from sustainably sourced "green" timber, every Shoreham Bollard will naturally age over time. Subtle cracking, twisting, and movement are part of the timber's character – adding individuality and authenticity to every piece of this high-quality wooden outdoor lighting solution.

FEATURES

- Durable Materials & construction

- High efficiency LED lamp
- Easy to install
- Low maintenance
- Sustainably sourced timbers

OPTIONAL EXTRAS

- Dusk to dawn sensor
- PIR sensors
- WIFI remote control

WOOD VARIATIONS

Larch

Oak

HOW TO INSTALL

Dig a suitable hole at the installation point and secure the bollard using an appropriate concrete mix, ensuring it is level before the concrete sets. Connect the power supply using a waterproof electrical connector (not included), protecting all connections from moisture.

Note: all electrical work must be carried out by a qualified electrician in accordance with current regulations.

Product	Code	Dimensions	Light Source
Shoreham Larch	WL006-L	1150x126x126	10w 240V LED
Shoreham Oak	WL006-O	1150x126x126	10w 240V LED
