

Stratton Eco

PRODUCT SPEC SHEET

Enhance your outdoor spaces with the Stratton Eco, our compact yet beautifully crafted solid timber lighting bollard. Designed to deliver understated elegance, it features an energy-efficient LED lamp that provides warm, directional illumination for decking areas, driveways, garden pathways, coastal settings and more.

As the slightly smaller sibling to our Stratton Single, the Eco may be more compact in stature, but it makes no compromise on presence. It offers the same bold architectural form and long-lasting durability, making it ideal where space is considered but impact still matters.

Sustainability sits at the heart of its design. Constructed from recyclable and biodegradable components, the Stratton Eco reflects our commitment to responsible craftsmanship, because great design shouldn't leave a lasting footprint.

Before leaving our workshop, each bollard is treated with a coat of natural oil. This enhances the richness of the grain, deepens the natural tones, and offers initial protection, allowing you to enjoy the timber's character from day one.

Crafted from sustainably sourced timber, every piece is inherently unique. As the wood naturally matures, gentle cracking, twisting and movement may occur. These are not flaws, but characteristics of solid timber, adding individuality and ensuring no two bollards are ever the same.

FEATURES

- Easy to install
- Low maintenance
- Low energy
- Sustainably sourced timbers
- Replaceable 240v 1.3w Light source with flying lead
- Warm white 3000k, LED driver included

OPTIONAL EXTRAS

- WIFI remote control
- Ground mounting plate (requires specifying at time of order) 900mm high post

WOOD VARIATIONS

Larch

Oak

HOW TO INSTALL

Dig a suitable hole at the installation point and secure the bollard using an appropriate concrete mix, ensuring it is level before the concrete sets. Connect the power supply using a waterproof electrical connector (not included), protecting all connections from moisture.

Note: all electrical work must be carried out by a qualified electrician in accordance with current regulations.

Product	Code	Dimensions	Light Source
Stratton Eco Larch	WL010-L	1150x94x94	1x 1.3w 240v LED
Stratton Eco Oak	WL010-O	1150x94x94	1x 1.3w 240v LED
