

# Sway Flo

## PRODUCT SPEC SHEET

Sway Flo is defined by its distinctive domed crown and a seamless band of ultra-bright LED strip lighting that traces the contour of the bollard creating a striking, architectural silhouette that commands attention.

With its confident proportions and refined detailing, Sway Flo is designed to stand out while delivering dependable, long-lasting performance. Crafted from recyclable and naturally biodegradable materials, it reflects our commitment to sustainable design because exceptional aesthetics should never compromise the environment.

Before leaving our workshop, each piece is finished with a coat of natural oils to enhance the depth of the grain and enrich the timber's natural tones, ensuring its beauty is protected from day one.

Milled from sustainably sourced "green" timber, every bollard will naturally evolve over time. Subtle cracking, twisting and warping are part of the wood's authentic ageing process adding character and ensuring every piece remains truly one of a kind.

## FEATURES

- Durable Materials & construction
- 240v LED driver installed as standard
- High efficiency LED strip
- Easy to install
- Low maintenance
- Sustainably sourced timbers

## OPTIONAL EXTRAS

- Dusk to dawn sensor
- PIR sensors
- WIFI remote control

## WOOD VARIATIONS

Larch

Oak

## HOW TO INSTALL

Dig a suitable hole at the installation point and secure the bollard using an appropriate concrete mix, ensuring it is level before the concrete sets. Connect the power supply using a waterproof electrical connector (not included), protecting all connections from moisture.

**Note: all electrical work must be carried out by a qualified electrician in accordance with current regulations.**

Product	Code	Dimensions	Light Source
Sway Flo Larch	WL007-L	1150x140x140	36w 240v LED
Sway Flo Oak	WL007-O	1150x140x140	36w 240v LED
